

PRESS RELEASE

Beaumont Hospital first in Ireland to select leading European CPOE system

6 February 2025 – As part of the wider Digital for Care programme Beaumont Hospital, Dublin, funded and supported by the HSE, have chosen Dedalus' ORBIS as its Computerised Physician Order Entry and Clinical Portal solution (CPOE), making them the first hospital in Ireland to take Europe's leading application.

ORBIS CPOE will be used to place orders for a wide range of tests, investigations and services that go beyond pathology and diagnostic imaging.

Beaumont Hospital will also use ORBIS to view patients in wards and easily see what results are available, alerts and outstanding actions for each patient. This together with ORBIS' Patient and Activity Dashboards will assist with Beaumont's workflows, enriching patient care and maintain clinical safety.

ORBIS CPOE is expected to result in gains in efficiency, process optimisation, and streamlined communication within the Hospital.

David Sweeney, Deputy Chief Executive Officer at Beaumont Hospital said: *"Deploying ORBIS CPOE is a major step forward and a key component of our digital transformation, and vision for a modern patient-centred and sustainable service for the patients of Beaumont Hospital. It will make a real difference to how healthcare is delivered to patients moving forward."*

Daryll Goodall, Regional Managing Director of UK and Ireland at Dedalus, said: *"We are delighted to have Beaumont Hospital as the first hospital in Ireland to implement ORBIS CPOE, and to be providing a seamless, safe and secure connected CPOE system which will improve patient safety, quality and efficiency."*

Ensuring that diagnostic results are accessible at the point of care will enable Beaumont's clinicians to make swift informed decisions at every stage of the patient's journey."

Cathy McCartan, Executive Director, Ireland at Dedalus said: *"We are excited to be working with an incredible team at Beaumont Hospital. There is no doubt that their commitment, focus and passion are key factors in this major project which will transform the way clinicians record, view and share patient data moving forward.*

This is only the beginning for Beaumont Hospital, and we are proud to be a key partner in their Digital Transformation strategy"

Ends

Notes to editor:

ABOUT DEDALUS

Dedalus Group is the leading healthcare and diagnostic software provider in Europe, supporting the digital transformation of 7,500+ Healthcare Organisations and 5,700+ Labs and Diagnostic centres worldwide, and serving more than 540 million people across the globe through its healthcare solutions. Dedalus supports the whole continuum of care, offering open standards-based solutions serving each actor of the Healthcare Ecosystem, enabling better care and a healthier planet.

Dedalus boasts a proven track record of excellence, partnering with the HSE for over 30 years.

BEAUMONT HOSPITAL

Beaumont Hospital, incorporating St. Joseph's Raheny, is a large academic teaching hospital 5km north of Dublin City centre. The Hospital provides emergency and acute care services across 54 medical specialties to a local community of some 290,000 people. In addition, Beaumont Hospital is a designated Cancer Centre and the regional treatment centre for Ear, Nose & Throat, and Gastroenterology, the national referral centre for Neurosurgery and Neurology, Renal Transplantation, the National Poisons Information Centre, Cochlear Implantation and Mechanical Thrombectomy.

Beaumont Hospital is the lead Level 4 hospital within the Royal College of Surgeons Hospital Group, which includes Connolly Hospital, Rotunda Hospital, Cavan / Monaghan Hospitals, Our Lady of Lourdes Hospital, with its academic partners The Royal College of Surgeons in Ireland University of Medicine & Health Sciences and Dublin City University. Beaumont Hospital employs approximately 4,000 staff and has a bed complement of 909 beds. Beaumont Hospital is the principal teaching hospital for the Royal College of Surgeons in Ireland. Beaumont Hospital also enjoys close links with Dublin City University, especially in the area of nurse training, and with other academic institutions in respect of training and research.

The St. Joseph's Hospital Raheny site provides both medical and surgical inpatient care, day-care, outpatient, outpatient physiotherapy, radiology services, Care of the Elderly Rehabilitation and a 100 bedded Raheny Community Nursing Unit.

Beaumont Hospital in partnership with the Royal College of Surgeons Hospital Group provides outpatient services and diagnostics in Omni Park Shopping Centre located within 2 kilometres of the Beaumont Hospital campus.
